- Preliminary Ecological Appraisal: CML2401 290063-ARP-00-RP-RP-NX-0006 - PEA_Ver1 submitted the 21 March 2024

Please provide a description of your request e.g. Construction Environment Management Plan submitted for approval prior to commencement of works/ submission of annual monitoring report for approval

The Environmental Action Plan (EAP) submitted states that 'Access corridors should not exceed a 5m zone either side of the proposed polder fence locations. Where possible access will only be made on one side of the proposed polder fence to minimise impact'.

It is becoming increasingly difficult to maintain the 5m width on site as softer areas of ground are causing machinery to create deeper tracks and get stuck. We are proposing this width is increased to a 10m zone with the intention to limit wherever possible. If we're unable to alter this access width it may not be possible to complete the works.
