Dear Bethan Owens,

## **MARINE AND COASTAL ACCESS ACT 2009: PART 4 – MARINE LICENSING**

**LICENCE FOR**                      **Mona Offshore Wind Limited to perform Mona Offshore Wind Farm 2024 Deep Geotechnical Survey**  
**LICENCE NUMBER:**    **RML2444**

I am writing to advise you that the Marine Licensing Team, on behalf of the Welsh Ministers, as Licensing Authority, has considered your application, considered complete 17 July 2024 for a Marine Licence under Part 4 of the Marine and Coastal Access Act 2009, and hereby grant a Marine Licence for you to undertake the above stated works.

Accordingly, please find attached for your review and retention a copy of Marine Licence **RML2444** and its conditions.

### **Advisory Note**

Please note NRW advisory (A) understand there is a commitment to mitigate against impacts to sensitive features by using data from geophysical, grab and DDV surveys carried out between 2021 and 2023 to inform the locations of the boreholes. However, this survey information has not been included with the application. Since the location is outside protected sites and considering the footprint and nature of the activity, NRW PS considers that the risk is mitigated with condition 3.19 in the licence.

NRW PS would like you to be aware for any future applications of the points raised on NRW A on the 15 August 2024, particularly regarding the statement on marine mammal habituating to vessel movement and noise.

Marine Licence, **RML2444**, constitutes a statutory consent; therefore, the conditions set out herein must be complied with in full and will be binding upon any agent or contractor who undertakes any activity on the project on your behalf.

You are urged to read the conditions of Marine Licence **RML2444** carefully, in particular the need to advise Welsh Government Marine Enforcement Officers of the commencement of works within **10 days** prior to work starting.

Marine Licence, **RML2444** is solely granted for the work to be undertaken at **Irish Sea**; however, it does not absolve you from applying for further consents or licences as necessary to enable the full completion of your project.

If the works authorised by this Licence are unlikely to be completed by the expiry date, the Licence Holder should apply for a replacement marine licence **at least 4 months** prior to the expiry date of this Licence.

Should you require clarification as to the reasons for the inclusion of any of the conditions attached to the Licence then you must request written notice within 28 days of the receipt of this letter.
