

Mr Alan Rhodes
Tradebe Healthcare National Limited
Birchwood Park
Birchwood
Warrington
WA3 6AE

Our ref: PAN-023647
Your ref: EPR/WP3836ZF

Date: 18/07/2024

Dear Mr Rhodes,

We need more information about your application

Application reference: PAN-023647

Operator: Tradebe Healthcare National Limited

Facility: Wrexham Clinical Waste Treatment Facility (Incinerator) Marlborough Road
Wrexham Industrial Estate Wrexham LL13 9RJ

Thank you for your application received on 26/10/2023.

I need to ask you for some more information before I can do any more work on it.

OPRA Score and Application Fee

The OPRA profile spreadsheet you have submitted confirms a score of 144. However, you have used a score of 161 to work out the application fee in application form Part F1.

Therefore you need to provide an updated OPRA profile spreadsheet confirming a current score of 161.

Application Form Part C2 5a - Plans for the Site

We are unable to open Figure 2, Installation of Boundary Plan showing location of new storage tanks. Please resend the document.

Application Form Part C2 6 - Environmental Risk Assessment

CIRIA C736

We need to assess your proposed containment measures against recognised standards for all new tanks and storage vessels to be added to your site. Please provide a full risk assessment of all primary, secondary, and tertiary (where applicable) containment measures on-site where potentially polluting liquids are being stored. The risk assessment and measures should be produced in line with the recognised CIRIA C736 (2014) guidelines and 'How to comply with your environmental permit (2014)'.

Correspondence welcomed in Welsh and English

The risk assessment should include a complete and accurate inventory of all new containment vessels and containment measures proposed for the storage of urea and brine, and also for the water softening and dosing system. We note you have supplied a site drainage plan, please refer to this document when carrying out the containment assessment.

Odour Management Plan

Please provide your updated odour management plan which should consider the risk of odour emissions for the proposal.

Air Risk Assessment - Section 5

You have not identified all relevant ecological receptors at risk from the activity, for example the River Dee and Bala Lake SAC and some Local Wildlife Sites. Please resubmit the written assessment and electronic modelling files and include all the relevant ecological receptors. We have provided you with a habitats screening report which you can use as an aid to help you.

Please reply within 10 working days from the date of this letter. If we don't hear from you we must return your application and fee.

If you email or write to us please quote the application reference PAN-023647 on any correspondence and send it to the relevant address below.

When we receive the missing items we'll continue to check the details in your application. If there's enough there for us to begin the process of deciding whether or not we can grant your application we say the application is 'duly made' and we'll let you know this by letter.

If you have any questions please phone me on 0300 065 4051 or email emma.smith@naturalresourceswales.gov.uk.

Yours sincerely

Emma Smith
Permitting Officer
