How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

### 2. What action is required?

No action required.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

**4. Details of our assessment**

This Compliance Assessment Report (CAR) has been issued in response to the submission of the Q2 (April - June) 2024 monitoring returns by Dunbia (UK) for activities at Teify Park Abattoir and Meat Processing Plant, Lampeter Road, Llanybydder SA40 9QE under environmental permit EPR-BV9683IH.

**Q2 2024 Monitoring Returns****Emissions to water** – Q2 Water

The returns for reporting of sampling and analysis of emissions to water (other than sewer) to emission point W2 for Q2 2024 (1 April - 30 June) were submitted to NRW on 23 July 2024.

The parameter listed for emissions to W2 were:

(i) Total suspended solids, (ii) pH, (iii) BOD, (iv) Ammonia, and (v) Volume/Flow rate.

- The monitoring data was sent within the Q2 reporting period, which is **compliant** with permit condition 4.2.3.
- The monitoring was conducted inside the Q2 monitoring period, which is **compliant** with permit condition 3.6.1.
- The monitoring returns submitted includes reporting of monitoring carried out in respect of the parameters and emission points specified in table S4.1 of schedule 4, which is **compliant** with the environmental permit.
- Based on the reports submitted by the operator, all other emissions at the monitoring points appear **compliant** with the specified limits over the Q2 2024 reporting period.

**Quarterly Waste Effluent Inputs to ETP** - Form 4.2.5

This document was submitted to NRW on 23 July 2024.

- This data was sent within the reporting period, which is **compliant** with permit condition 4.2.5.
- The report details a NIL return.
- Based on the report submitted by the operator, the waste data appears **compliant** with the specified permit requirements over the Q2 2024 reporting period.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

### How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

**If your assessment result in Section 1 is suspended, what does this mean?**

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
