Dear Sir or Madam

DISCHARGE CONSENTS - NOTIFICATION OF CHANGE TO DANGEROUS SUBSTANCES ANNEX

According to our records, you have a Consent to discharge trade or sewage effluent. The Discharge Consent contains the following condition or one that is similar: -

"The discharger shall notify the Agency in writing if any known introduction or material change in respect of discharges from trade premises...occurs that may increase or introduce into the effluent any "dangerous substance" included on List I, List II, or Red List (set out in Annex ...to this notice as updated from time to time and notified to the discharger in writing)..."

Owing to Regulations issued by DETR, the Environment Agency has reviewed the listing of substances in the Annex to this condition.

The Surface Waters (Dangerous Substances) (Classification) Regulations (SI No 2560 (1997) and SI No 389 (1998)) have made some substances, which had previously been identified in Government circular 7/89, statutory and have added 20 new substances to this list. The Annex listing has also been revised to reflect the additional substances in the Regulations and to include other substances that have become a cause for concern since 1989 when the listing was first issued.

This letter and the attached revised listing serves as the required Notification, referred to in the Consent condition. The change takes immediate effect. Please replace the old list with the new one. Please contact your local Environment Agency office and write or speak to Helen Williams if you have any queries about this letter.

Thank you for your help in this important matter.

Yours faithfully

Dear Sir/Madam

**RE: WATER RESOURCES ACT 1991 SECTION 88 SCHEDULE 10 (AS AMENDED
BY THE ENVIRONMENT ACT 1995) APPLICATION FOR VARIATION OF
CONSENT TO DISCHARGE**

Further to your application for variation of consent of the Agency to discharge under the provisions of Section 88 of the Water Resources Act 1991, I enclose the Agency's formal notice of the variations made to the conditions of the consent to discharge (Sewage Effluent from (Omega Pacific Ltd Sewage Treatment Works at Trecwn Valley, Haverfordwest).

Under the present Scheme of Charges for Discharges to Controlled Waters an annual charge will be made for all consents to discharge, except where the discharge is of sewage effluent of five cubic metres or less per day. This charge is based on information derived from the conditions attached to the consent to discharge, as outlined in the enclosed leaflet. A change in conditions may therefore result in a change in annual charge, you may therefore receive a revised bill in due course.

If you are not satisfied with the new conditions of the consent you may appeal against the decision to the Secretary of State for Wales at the Welsh Office, Cathays Park, Cardiff CF1 3NQ.

Please take careful note that if the holder of the consent changes, you must inform the Agency IN WRITING as soon as possible of the name of the new holder. This to ensure that the rights and charges associated with the Consent are transferred to the new holder. A certificate of Holder notice will be sent to you shortly which is designed for this purpose, and should be kept safely with the Consent until required.

Yours faithfully

Future plans undecided at this point, we will keep Environmental Agency aware of developments.

Notes (see also the notes attached to the main form):

- a) For significant sewage treatment plants full details of the plant design, dry weather flow and Biochemical Oxygen Demand load, along with information on all discharges from the works must be included in order for the application to be processed. Flow monitoring will normally be required for such discharges and details of siting and type of flow recorders should be provided.
- b) The Agency require a single body or company to be responsible for the discharge and any bills raised under the Charges for Discharges Scheme. Where multiple dwellings under different ownership are connected to the same system a management company should be set up.

Dear Sir/Madam.

Please find enclosed application forms for a variation to an existing consent, namely Consent N° BP 0254401. I enclose a cheque to the value of £537 for this purpose.

We are applying for a variation because we only took over ownership of this site 21-01-98 and were only made aware of the requirements, i.e. para's 6, 8, 12 and 13 the week before.

At a meeting on site on 10.2.98 with Mark Williams of your agency, we agreed the following dates against specific tasks - Re para 6 to read 31-12-99, para

8 to read 31.12.98 para 12 to read
31-12.98 and para 13 to read 31.12.99.

Also a point to strengthen our application
for a variation is that the enclosed report
rendered by WS Atkins on behalf of the MoD,
in our opinion and that of Mark Williams it
falls way short of being acceptable.

I hope this is acceptable to you and that
in due course we will be issued with a
new consent showing the new dates for the
required tasks, and we will work closely
with your agency to achieve the timescales
as agreed.

yours sincerely

DISCHARGE CHARGING ARRANGEMENT

Further to your application, I enclose the Authority's formal arrangement to discharge treated sewage effluent from RNAD Trecwn.

From 1st April 1994 most crown discharges to controlled waters, whether they have consent or a 'discharge arrangement' are subject to an annual charge, except where the discharge is of sewage effluent of five cubic metres or less per day. This charge is based on information derived from the conditions attached to the discharge arrangement, as outlined in the enclosed leaflet. You will receive an annual bill in due course.

Where there is a change of ownership of the discharge, the Authority should be informed in writing in order that an apportioned charge may be raised.

Dear Sir/Madam

**RE: WATER RESOURCES ACT 1991 SECTION 88 SCHEDULE 10 (AS AMENDED
BY THE ENVIRONMENT ACT 1995)
APPLICATION FOR CONSENT TO DISCHARGE AT FISGUARD
APPLICATION NO. BP0254401**

Further to your application the Agency has decided that consent should be given subject to conditions. I enclose the Agency's formal consent to discharge **biologically treated sewage** from **MoD Trecwn Sewage Treatment Works**.

Under the present Scheme of Charges for Discharges to Controlled Waters an annual charge will be made for all consents to discharge, except where the discharge is of sewage effluent of five cubic metres or less per day. The charge is based on information derived from the conditions attached to the consent to discharge, as outlined in the enclosed leaflet.

If you consider that the conditions imposed by the consent are unreasonable you have a right of appeal to the Secretary of State for Wales at the Welsh Office, Cathays Park, Cardiff, CF1 3NQ.

Notice of an appeal must be given in writing within three months of this notification and must be accompanied by a statement of the grounds of appeal.

If granted, a consent under Schedule 10 of the Act, covers water quality considerations only. It does not alter the need to obtain any other consents or approvals which might be required in connection with your proposal under other legislation. For example it does not give any right or permission to discharge where land is not owned by the applicant.

This is to ensure that the rights and charges associated with the Consent are transferred to the new holder. A Certificate of Holder notice will be sent to you shortly which is designed for this purpose, and should be kept safely with the Consent until required.

2. The Discharge shall consist solely of biologically treated sewage effluent.

LOCATION

3. The Discharge shall be made in the manner and at the place specified as:
 - (a) discharging via a 300 millimetre diameter pipe;
