

Apply to vary a marine licence

Variation request details

Marine licence number
CML 2272

Expiry date of current licence
* 31/12/2026

Licence holder name
Conwy County Borough Council

Variation type
Administrative change

Brief description of licence variation that is required.

(Identify licence condition numbers and reference the supporting documents within your current licence which are likely to be affected)

I am writing in reference to the Kinmel Bay Coastal Defence Improvements Scheme. We (the Client and Marine Licence Holder– Conwy County Borough Council) now have a contractor (Jones Bros of Ruthin) on board to construct the works. As a result of this and a review of the works there is a lot less temporary sheet piling required than originally proposed and a different method of installing the sheet piles is also proposed. The full details of the changes proposed can be found in the attached document reference Kinmel Bay CMS Addendum MS Rev 1 This construction method statement addendum has been prepared by Jones Brothers Civil Engineering UK Ltd for the Kinmel Bay Coastal Defence Improvements Scheme. The purpose of the construction method statement addendum is to amend the proposed temporary sheet piling methodology included in the current accepted project documentation.

Marine Licence number: CML2272v1 has been granted for the scheme. Construction Method Statement reference CML2272-GKX-JBAU-00-00-MS-EN-0001 referenced in the granted marine licence is the approved supporting document detailing sheet piling installation methodology. The approved Construction Method Statement states “Install sheet piles for beach accesses and provide fill between piles” in various locations of the project. This methodology as well as the environmental statement assumed that the 7 proposed permanent beach access structures (AP3-AP9) would require sheet piling as part of the construction methodology. This would be spread along the 2km project. The approved Construction Method Statement page 6, Table 2 states “Sheet piling will be installed using the Giken (or similar) vibration free piling method. No hammer piling will take place” Following additional GI and design development, the temporary sheet piling requirements for the project have now been significantly reduced with alternative, less disruptive construction methodologies for access points AP3, 4, 5, 6 and 7. The only remaining temporary sheet piling requirement for the project is to provide a temporary cofferdam for construction of beach access steps AP10 at the western end of the scheme. AP10 is an alternative access point to the previously proposed AP8 & AP9, thus further reducing the amount of work required in the intertidal zone.

In addition as the original application was supported by an Environmental Statement (Reference CML2272 -GBX-JBAB-00-00-RP-EN-0006-S3-P04-Environmental Statement; CML2272-GKX-JBAU-00-00-RP-EN-0008-S3_PO3;Environmental_Statement_Technical_Summary; CML2272 – GKX-JBAU-00-00-RP-EN-0009-S3-P02-Environmental_Statement_Volume_2; CML2272 GKX-JBAU-00-00-RP-EN-0009-S3-P02-Environmental_Statement_Volumes_2_P1 and CML2272 GKX-JBAU-00-00-RP-EN-0009-S3-P02-Environmental_Statement_Volumes_2_p2) . The original Environmental assessment has been checked to see if the proposed changes lie within its parameters and it was found that an addendum was required. These addendums are attached and referenced NDD-JBA-XX-XX-RP-EN-0001-S3-P02-ES_addendum_for_piling_method; NDD-JBA-XX-XX-RP-EN-0002-S3-P02-ES_addendum_for_piling_NTS; Kinmel Bay CMS Addendum MS Rev 1

When are you looking to start work requiring the variation?

* 06/01/2025

Application fee

Complex variations only

Complex variations are charged at an hourly rate of £120 and are invoiced in arrears. Please complete the details below that are required for invoicing.

Customer name	Conwy County Borough Council
FAO	Kevin Lucas
Purchase order number	PO - 00039158
Address for invoice	Coed Pella Council Building Conway Rd LL29 7AZ
Telephone number	07554152972
Email address	kevin.lucas@conwy.gov.uk

Do you want to claim public register confidentiality?

Under The Marine Licensing (Register of Licensing Information)(Wales) Regulations 2011 and the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended), all information contained within or provided in support of this application will be placed on the Public Register unless NRW approve of the applicant's reasons for withholding all or part.

Is there any information that you consider should not be included on the Public Register on the grounds that its disclosure would be contrary to the interest of National Security, or would prejudice to an unreasonable degree you, or some other person's commercial interest of those of a third party? *

No

Declaration
