Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

The variation for Park House and Rhos Holiday Park is to replace the two existing septic tanks with two package plants and to reduce the volume of effluent to 4.1m³/day at Outlet 1 with a slight increase to 11.85m³/day at Outlet 2. The National Grid References of the discharge points are also varied to account for the location of the new package treatment plants. Monitoring points have been added following an NRW initiated variation as these were not included on the original permit.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number. It is not backdated before 6 April 2010.
