Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

At this time, we are issuing you with a warning for the non-compliance recorded above. Warnings may influence future enforcement response for continued or further non-compliance.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On the 4th of September 2024, Natural Resources Wales (NRW) attended the site of Plas

Panteidal Sewage Treatment Works for a site inspection of permit CG0080801.

The sewage treatment plant at Plas Panteidal is premitted to discharge treated sewage in accordance with the conditions set out by discharge consent CG0080801.

Condition 3 of consent to discharge CG0080801 requires the discharge from the treatment plant to be made in the manner and at a place specified as:

- a. Discharging via a pipe;
- b. Discharging to estuarial waters of Afon Dyfi;
- c. At National Grid Reference SN 6542 9704.

During the visit, NRW noted that treated effluent from the sewage treatment plant located at SN 65328 97090 was not discharging at the permitted location.

Officers walked to the permitted discharge point and noted that the discharge pipe was dry, and that there was no evidence of any recent discharges at the location.

The officers proceeded to follow the pipeline through the woods to NGR SN 65347 97041 where they discovered that the pipeline carrying the treated effluent from the sewage works was broken.

The pipeline at this point was also dry, leading to concerns that the pipeline is leaking treated effluent in a location further up.

Additionally, the lack of maintenance around the area of the pipeline was of concern to NRW as it is currently impossible for the pipeline to be regularly inspected for any issues.

Action:

Ensure that discharge is made at the estuarial waters of the Afon Dyfi at SN 6542 9704, as per licence condition 3, and inform NRW of when the works have been completed.

Due date: 01/04/2025.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
