Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Compliance of Control of Pollution (Amendment) Act 1989

On Thursday 31st October 2024 Andy Prestt, Carriers and Brokers Officer visited Heads of the Valley Salvage Ltd – permit reference YP3992EN checking waste transfer notes, customer waste carrier licenses and site duty of care compliance processes.

W1A General Management – C3 breach of permit condition

Your management system must explain how you will comply with the requirements of waste Duty of Care. This includes ensuring any waste carriers you accept waste from are registered.

During our inspection, it was observed waste transfer note documentation record keeping was ok, but identified there were several businesses or waste carriers that did not have waste carriers licenses. As a result, we have scored a breach against this condition. You must ensure your management system includes procedures explaining how you will comply with the requirements of Duty of Care and you must operate in line with these procedures,.

To comply with your duty of care requirements you must check waste carrier licenses of all businesses, sole traders and scrap metal collectors transporting waste onto your site.

If a business is not registered as a licensed waste carrier and refuses to do so

Andrew.prestt@naturalresourceswales.gov.uk is to be contacted to get the business to sign up as a waste carrier.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
