1 SEASCAPE AND VISUAL RESOURCES: CUMULATIVE WIRELINES

1.1 Introduction

1.1.1.1 NRW (A) written representation (REP1-056) stated:

“262. Effects on the views and visual amenity of visual receptors (people) at locations within both the IoA NL and ENP would be significant and adverse, both as a result of the proposed development individually and cumulatively with the consented Awel-y-Môr development. This will include harm to views at locations which attract visitors seeking to experience the natural beauty and special qualities of these landscapes. Particularly within the IoA NL which is predominantly a coastal designation.”

1.1.1.2 In response, the Applicant confirmed that it will produce additional cumulative wirelines, showing both the Mona Array Area and the Awel y Môr array area (REP2-080; REP1-056.225).

1.1.1.3 Additional wirelines have been produced for the following viewpoints (selected due to their location within designated areas):

- Viewpoint 1: Mynydd y Garn trig point, Isle of Anglesey National Landscape
- Viewpoint 2: Llanlleiana Head, Isle of Anglesey National Landscape
- Viewpoint 4: Bwrdd Arthur trig point, Isle of Anglesey National Landscape
