Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

On 09/10/2018 the site was inspected as a routine site inspection, to introduce the new officer Sally Wakeford to the site. Sally Wakeford and Ffion Thomas attended.

At the time of the inspection the site was locked and secured, and officers could not gain access. Emails from David Matton confirmed he had been unable to attend.

A large pile of wood chip was present on site mainly within the building, and a further deposit of wood chip was present on the rising land to the left of the entrance.

Photographs were taken, and officers left the site.

Any compliance criteria not highlighted in the above summary should be considered as not assessed.
