

Apply to vary a marine licence

Variation request details

Marine licence number

MMML1948v2HN

Expiry date of current licence

* 06/05/2038

Licence holder name

Hanson Aggregates Marine Limited

Variation type

Complex change

Brief description of licence variation that is required.

(Identify licence condition numbers and reference the supporting documents within your current licence which are likely to be affected)

Varying the 531 marine licence condition 3.5.8 to make the monitoring reporting deadline match the new monitoring programme submitted on 25/11/24 via the NRW's "apply to discharge a marine licence condition" portal. The new deadline is proposed to be the end of the calendar year that follows the calendar year of the associated monitoring surveys. This is currently in place with the MMO for all licence areas in English waters, including 531. At present the monitoring reporting deadline is nine months after the survey, which is proving to be not achievable.

Also to vary marine licence condition 3.6.2 so that the Substantive Review deadline will be the end of the calendar year following the calendar year in which the monitoring reporting is due, as we have in place already with the MMO. This will allow enough time to include the most up to date monitoring data in the substantive review.

The attached Gantt chart details the current and proposed monitoring schedule timings.

Please upload all supporting information for this request (where applicable)
