This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

At 10:00 on the 22nd of October 2024 an officer from Natural Resources Wales met with the employees of Swanton to carry out a compliance inspection of the water quality discharge numerical permit BP0353101. The weather on the day was mild and dry.

Maintenance records all received via email prior to conducting the site visit, with thanks. It was noted that the Klargestor system had recently been serviced and required some new parts.

I was shown around the site which appeared well maintained.

The outlet was down a steep bank. There was no visible oil or grease present, and the discharge appearance was clear in accordance with point 1.5.1 of the permit conditions.

Actions to be completed before 31/12/2024:

- Ensure a maintenance log is created in accordance with condition 1.9.1a of the permit conditions
- Submit an application for a permit transfer. Company name change is required.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
