Dear Mr Emery

Your environmental permitting application is duly made

Application reference: PAN-024285

Operator: Kronospan Limited

Facility: Chirk Particleboard Factory, Maesgwyn Farm, Chirk, Wrexham LL14 5NTM

The permit variation application, received on 02/01/2024, is duly made as of 15/11/2024. Duly made means that we have all the information we need to begin determination. Determination is where we assess your application and decide whether or not we can allow what you've asked for. If we have to refuse your application, we'll explain why.

We may need to ask you for more information during determination. If we do, we'll write to you to explain what we need and how long you have to reply.

Our Customer Charter explains that as long as you have provided us with all the information we need, included the appropriate fee and there are no complicating factors such as confidentiality decisions, you can expect us to determine your application within the following timescales:

- for transfer or partial transfer of an environmental permit within two months.
- for a standard permit (except for installations); minor or normal variation or surrender or partial surrender of an environmental permit within three months.
- for a standard permit for an installation, a bespoke permit or substantial variation to a permit (with public participation) within four months.

We want to give you a decision as quickly as possible, but the time it takes depends on what's in the application. We may need to agree a longer timescale with you:

- if the application is complex.
- if we need to ask you for more information about the technical aspects of your application.
- if there's a considerable level of interest from the public or other organisations.
