Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

On 15 October 2024, this site was inspected because it falls within the Pembrokeshire SAC rivers catchment and discharges an effluent volume above the threshold which requires a phosphate limit by 2030 as explained in letter sent to The Valley Trecwn Ltd dated 28-08-2024.

The primary purpose of the visit was to sample the effluent for sanitary determinands including phosphate to get a baseline phosphate level.

The site looked in good working order, however the access to the sampling point was

difficult and slippery and requires improvement. Please could the improvements to the access be carried out by end of 2024, and inform NRW when complete

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.
