2	8

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

### 2. What action is required?

Criteria	Action needed	Complete by
IR1A	Vary permit to include up to date site plan and drainage plan	09/05/2025
IR2A	Vary permit to add gas tanks as DAA and locate on site plan	09/05/2025

Compliance criteria codes are listed in the 'Important information' section below.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

Natural Resources Wales Officer Shaun Rees met with site operator Bryn Lewis and Site representative Will Lea of Lloyds animal feeds to carry out a routine poultry inspection for the site on the 1st November 2024 at 10:30am. Thank you for your time during the visit.

Non-Compliances (recorded in summary) Actions to be addressed -

*The site plan submitted at the application stage and currently attached to the permit is incorrect with the current site layout.*

*Please complete a variation to the permit to attach an up to date site plan and drainage plan by the 9th May 2025.*

**Permitted activities**

*Gas tanks currently on site which are not listed as DAA (directly associated activities) and also not located on the permit site plan*

*Please complete a variation to the permit to add the gas tanks to the listed activities and the site plans to be completed by the 9th May 2025.*

*Please follow the link to make changes to your permit:*

**[Natural Resources Wales / Apply to vary \(change\) a permit for installations](#)**

During the audit, a discussion took place regarding the removal of one of the operators due to them passing away, please use the the link above to make that change and complete Form A, C0.5 and the Form F.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

### How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

**If your assessment result in Section 1 is suspended, what does this mean?**

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
