Mae'r Neges hon Gan Anfonwr Allanol / This Message Is From an External Sender

Daeth y neges hon o'r tu allan i'ch sefydliad / This message came from outside your organization.

Dear Daniel,

Thank you for the below consultation. There appear to be no significant archaeological implications for the temporary scaffolding. Will the sea wall work itself be a separate marine licence? (Not expecting significant concern here either but useful to know if it's coming up.)

Regards
Jenny

Subject: Llanfairfechan Coastal Defence Works - Marine Licence

Dear All,

We are in the process of submitting a Band 2 Marine Licence Application for temporary scaffolding to allow us to undertake flood defence works to the existing Llanfairfechan sea defence. The proposed works are to raise the existing sea wall by approx. 300mm over a 725m stretch to provide additional flood protection to the town. As part of the application process we require your comment.
Please find attached a location plan showing the existing location of the sea wall and address below:

Llanfairfechan Promenade, Conwy, Wales, LL33 0BY, United Kingdom

E: 267886 , N: 375465

When we go to tender we will ensure the Contractor will provide a Method Statements and Risk Assessments for the works prior to commencement. This will be checked to ensure they include accessing the foreshore by foot to erect any scaffolding, ensuring no material enters the water body and the works comply with the currently legislation and guidance in regarding to pollution etc. The RAMS will also include suitable fencing / signage as required for safe execution of the task to prevent the public from entering the works area.

If you require any further information please let me know.
Thanks
