

Compliance Assessment Report CAR_NRW0045566

Licence being assessed: WA/067/0005/008.

For: Vivod Estate, held by William Best, Robert John Best, Juliet Best.

At: Nant y Bache River, LL20 7LS.

Type of assessment: Site Inspection, Reason: Routine.

On 30/10/2024, between 10:00 and 11:00.

Parts of licence assessed: 6 Maximum Quantities of Water Abstracted, 8 Records, 9 Further Conditions

NRW Lead Officer: Philip Barrett, accompanied by Julian Whitehead.

Report sent to: Licence contact, Licence Holder, on 22/11/2024.

1. Summary of our findings (full details in section 4)

Part of licenced activity assessed (criteria)	Assessment result	Licence condition
WR-A6 - Water Abstraction - Abstraction specified by licence - Quantities	Assessed (A)	
WR-F2 - Water Abstraction - Discharge - Infrastructure	C3 Minor	9.9 No abstraction shall take place unless the licence holder has installed a screen with spacing no greater than 50 millimetres to the outlet structure to prevent the entrapment, entrainment or impingement of fish.

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WR-F2	Ensure the abstraction screen is adequately secured in place.	20/12/2024

Action criteria codes are listed in the 'Important Information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution or civil sanctions being imposed depending on the circumstances of the offence.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

A visit was carried out on the 30th October 2024 to the abstraction that takes place on the Nant y Bache under licence WA/067/0005/008.

As covered in compliance inspection form CAR_NRW0045564 - ***A visual inspection was carried out of the impounding structure and found that gravel was accumulating behind the impounding structure. The main area of gravel accumulation was behind the abstraction screen, causing the flow to prioritise the Hand off Flow and Compensation flow notches. A check of the screen found it to be in a good condition and within the spacing requirement of 10 millimetres.***

Measurements were taken of the weir plate and found that the correct flow split plate (50/50%) was in place for this time of year.

Condition 9.9 (i) of the licence states:

No abstraction shall take place unless the licence holder has installed a screen with spacing no greater than 50 millimetres to the outlet structure to prevent the entrapment, entrainment or impingement of fish.

Condition 9.9 (i) has been raised following a previous inspection, which is covered in compliance inspection form CAR_NRW0040264. Following the previous visit, a screen was installed on the outfall pipe. As the pipe serves the local authority drains from the track above, the screen was placed on a hinge to allow debris to pass through the pipe without causing a blockage. During the recent visit, it was found that the screen has broken away from the hinge holding it in place and is now on the bed below the outfall pipe.

Work must be carried out to ensure the screen is in place while an abstraction is taking place.

Condition 6.1 states the maximum quantity limits as:

*205.2 cubic metres per hour
4,924.8 cubic metres per day
584,624.0 cubic metres per year*

At an instantaneous rate not exceeding 57 litres a second.

Returns have been submitted on the web based portal for April 2019 - March 2024. The returns data submitted is in weekly and annual quantities (April - March) for these periods. The daily quantity (4924.8) multiplied by 7 (days) is 34473.6 cubic metres.

The 2019 - 2020 data show the annual abstraction quantity to be 237,145 cubic metres, with a highest weekly quantity of 20,177 cubic metres.

The 2020 - 2021 returns show the annual abstraction quantity to be 317,898 cubic metres,

with a highest weekly quantity of 21,588 cubic metres.

The 2021 - 2022 returns show the annual abstraction quantity to be 257,700 cubic metres, with a highest weekly quantity of 19,608 cubic metres.

The 2022 - 2023 returns show the annual abstraction quantity to be 211,690 cubic metres, with a highest weekly quantity of 19,847 cubic metres.

The 2023 - 2024 returns show the annual abstraction quantity to be 504,274.236 cubic metres, with a highest weekly quantity of 33,083.361 cubic metres.

All returns are within the annual and weekly quantity limits.

If you would like to discuss any of the above further, please do not hesitate to contact me on the details below.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your licence is issued to you under the Water Resources Act 1991 as amended by the Water Act 2003. You have a responsibility to comply with the conditions of your licence and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.

Full list of Water resource action criteria (used in section 1 and 2):**WR A: Abstraction specified by Licence**

- WR-A1 Source of supply
- WR-A2 Points of abstraction
- WR-A3 Means of abstraction
- WR-A4 Purposes of abstraction
- WR-A5 Period of abstraction
- WR-A6 Quantities
- WR-A7 Land
- WR-A8 Other specified on licence

WR B: Abstraction measurement and records

- WR-B1 Means of measurement
- WR-B2 Recording
- WR-B3 Reporting

WR C: Surface / Groundwater level and protected flow

- WR-C1 Minimum hands-off flow/level requirements
- WR-C2 Flow/level measurement devices
- WR-C3 Recording
- WR-C4 Reporting

WR D: Environmental monitoring and information

- WR-D1 Recording
- WR-D2 Reporting
- WR-D3 Notifications

WR E: Fish and eel passage

- WR-E1 Infrastructure specified by licence
- WR-E2 Maintenance and records

WR F: Discharge

- WR-F1 Point of discharge
- WR-F2 Infrastructure
- WR-F3 Measurement
- WR-F4 Recording
- WR-F5 Reporting

WR G: Impoundment specified by licence

- WR-G1 Inland water to be impounded
- WR-G2 Manner and extent of impoundment
- WR-G3 Point(s) of impoundment
- WR-G4 Construction and removal requirements
- WR-G5 Other specified on licence

WR H: Borehole infrastructure

- WR-H1 Infrastructure and accessibility
- WR-H2 Maintenance and calibration

Enforcement response

Any licence condition non-compliance is an offence and we may take legal action against you. Action we take can include prosecution or civil sanctions. See our Enforcement and Sanctions Guidance for further information.

Data protection notice

You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

Disclosure of information – this report will be available to view on-line

If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within 20 working days to let you know if we agree to your request.

What do I do if I disagree with the report or have a complaint?

If you disagree with this compliance assessment report, you should contact the lead officer without delay to discuss your concerns.

If you are unable to resolve the issue with the lead officer or their line manager you should contact our Customer Contact team on 0300 065 3000 (Mon to Fri 08:00 – 18:00), or email enquiries@naturalresourceswales.gov.uk for details of how to raise your dispute further through our Complaints and Commendations procedure.

If you are dissatisfied with our response, you can contact the Public Services Ombudsman for Wales by phone on 0300 7900203 or by email at ask@ombudsman.wales

Welsh Language Standards

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
