Brief description of licence variation that is required. (Identify licence condition numbers and reference the supporting documents within your current licence which are likely to be affected)
<p>Amendment to the area to be surveyed at two of the landfall locations to increase the area after a change in available landfalls since the determination of the marine licence (licenced area is captured in Annex 1 and Annex 2 of the licence). The Project Description (P2578_R6143) for these works will remain unchanged and the number of samples will not increase, however we would like the area to be included in the licence application to be increased by a total of approximately 1.4km2 if possible to ensure there is enough data available to be able to consent and install the cable at either landfall. The increase in area will not affect the outcomes of the HRA Screening Assessment (P2578_R6146_Rev2-WalesHRA) as the planned works to be carried out have not changed in scope and the additional area is within no additional protected sites. As stated in the HRA Screening Assessment, all sample locations will be reviewed prior to selection to ensure any sensitive habitats are avoided. A map showing the change in area, as well as coordinates for the new areas are attached.</p>
