3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

This CAR is to acknowledge receipt by NRW of 2024 Q1, Q2 and Q3 monitoring reports for Princes on 17/10/24.

This CAR also records a site visit made by NRW Officers to Princes Cardiff on the 15th October 2024. NRW Officers in attendance were: Brigid Armstead, Geraint Harris and Kelly Sherratt. Princes Chief Engineer and EHS Coordinator were present for the site visit. The purpose of the site visit was to introduce a new regulatory officer from NRW and undertake an audit of the sites containment. The site visit was followed by a request for further information by email. A further CAR will be sent following receipt of this information and completion of our containment audit report.

The following reports are currently outstanding:

- Review of the results of the monitoring and assessment for 2023 as per Condition 4.2.2(a)
- E1 for 2023 as per Condition 4.2.2(c)
- R1 for 2023 as per Condition 4.2.2(c)
- WU1 for 2023 as per Condition 4.2.2(c)
- PI1 for 2023 as per Condition 4.2.2(b)

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
