PERFORMANCE SUBMISSION FIGURES for 2023

SUPPLEMENTARY NOTES:

PRODUCTION OUTPUT

In terms of volume, output for Peter's Food Service Limited in respect to Bakery (pastry products) has experienced an uplift in contrast to recent years. However, again, Sausage output continues to decline with a reduction in volume.

WASTE

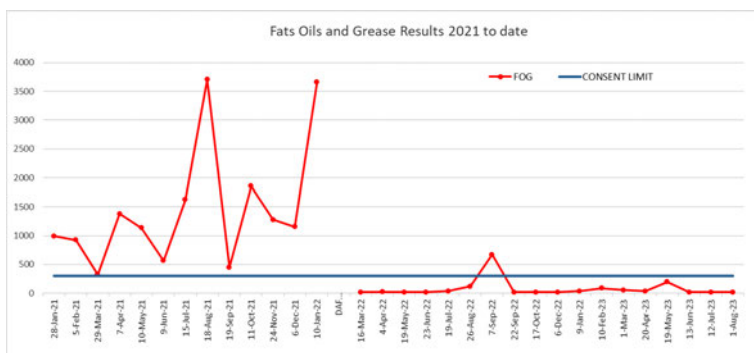

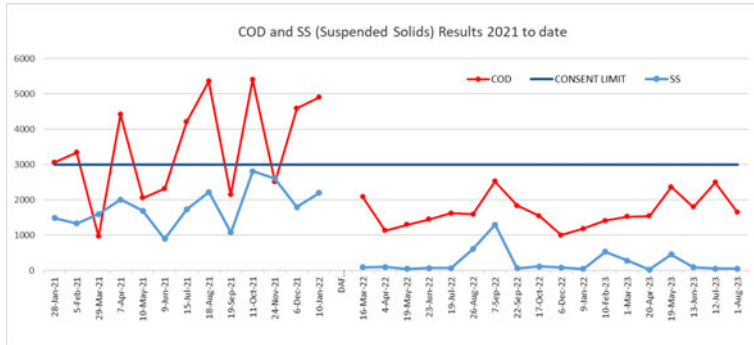

Food Waste continues to account for a significant portion of the overall waste figure.

As from January 2015 no "Food Waste" nor any other waste has gone to landfill. This continues to be the case and that food waste is recycled through anaerobic digestion for generating methane for energy consumption.

Since April 2023 we've established a relationship with Fareshare Cymru. Where a proportion of food waste (12tonnes) has been redistributed to 160 charities across Wales with 18,000 beneficiaries.

Our Dissolved Air Flotation Plant, commissioned in 2022, continues a performance that exceeds expectations

WATER

Water consumption has decreased on last year.

GAS & ELECTRICITY

An overall decrease in both Gas and Electricity consumption.

From April 2024 Electricity will be from 100% renewable sources.
