Dredging

Is your application for capital or maintenance dredging? Capital dredging is the removal of material that has not previously been dredged or has not been dredged in the last 10 years. This includes deepening or widening an existing dredge area. Maintenance dredging relates to the removal of material from areas which have previously been dredged (in the last 10 years) i.e dredging the same areas and to the same depth as before.

Maintenance dredging

Please provide the following details:

The last licence/application number DML1743v3

When sediment analysis was last undertaken 14/06/2022

When the area was last dredged -

If this is to support a renewal of a marine licence, state if there are any proposed changes to operation since the last licence

Not related to renewal of marine licence.

Related to discharge of condition 9.14 of Marine Licence DML1743v3 requiring the submission of a Proposed Sediment Sampling Plan (PSSP). This PSSP is attached above (Document Reference: J0902/25/01/09 DML1743v3 Proposed Sediment Sampling Plan v1.0) and we request approval of this from NRW and confirmation that it is acceptable. The proposed sediment sampling plan (PSSP) specified in this letter is in line with advice provided by the Centre for Environment, Fisheries and Aquaculture Science (CEFAS), under contract to NRW (Ref SP2207) in May 2022. Should you have any questions on the uploaded document or need any further information please contact Carcinus on the contact details specified in this application.

Will the dredged material be disposed to sea, beneficially used, or used for another purpose?

Disposed to sea

If disposal at sea, provide the name and code of the proposed disposal site

Neyland Yacht Haven - LU 190

If beneficial use, how will the material be used and what is the proposed deposit location? Provide name of location and coordinates

N/A

What material is the likely composition of the dredge sediment e.g. silt, gravel? Provide proportions of the different types of material if relevant

Silt – 60%, Clay – 30%, Sand – 10%

Provide details of any previous exclusions from dredging/disposal/beneficial use/re-use

None.
