Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation and consolidation of an environmental permit.

This variation adds an independent urea injection system in order to reduce the facility's emissions of Oxides of nitrogen (NOx) to air through Selective Non-Catalytic Reduction (SNCR)

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
