Dredging

Is your application for capital or maintenance dredging? Capital dredging is the removal of material that has not previously been dredged or has not been dredged in the last 10 years. This includes deepening or widening an existing dredge area. Maintenance dredging relates to the removal of material from areas which have previously been dredged (in the last 10 years) i.e dredging the same areas and to the same depth as before.

Maintainence dredging

Please provide the following details:

The last licence/application number	DML1947v2
When sediment analysis was last undertaken	March 2023
When the area was last dredged	January 2025

If this is to support a renewal of a marine licence, state if there are any proposed changes to operation since the last licence

Compliance with condition (Regular Sampling) on an extant 10 year disposal licence.

Will the dredged material be disposed to sea, beneficially used, or used for another purpose?

Sea

If disposal at sea, provide the name and code of the proposed disposal site

Swansea Bay (Outer) (LU130)

If beneficial use, how will the material be used and what is the proposed deposit location? Provide name of location and coordinates
