

Compliance Assessment Report CAR_NRW0046015

Permit being assessed: ZP3795FD.

For: European Metal Recycling Ltd, held by European Metal Recycling Ltd
At: Dowlais Wharf, Roath Dock, Cardiff, Glamorgan, CF10 4ED.

Type of assessment carried out: Site Inspection, Reason: Routine.

On 15/01/2025 between 13:30 and 14:50.

Parts of permit assessed: Part of permit assessed

NRW Lead Officer: Craig Coleman, accompanied by Gareth Morris, Andrew Prestt.

Report sent to: Martin Crossman, Area Manager on 23/01/2025.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
W1A - Waste - Management - General management	Assessed (A)	
W2A - Waste - Operations - Permitted activities	Assessed (A)	
W2C - Waste - Operations - Operating techniques	Assessed (A)	
W2D - Waste - Operations - The site	Assessed (A)	
W2E - Waste - Operations - Waste acceptance	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

European Metal Recycling, Dowlais Wharf, Roath Dock, Cardiff, CF10 4ED (EPR/ZP3795FD) – 15/01/2025

Environment Officers Craig Coleman, Gareth Morris, and Carriers and Brokers Officer Andrew Prestt visited the European Metal Recycling (EMR) facility at ABP Cardiff; on 15/01/2025 to undertake an unannounced site inspection to assess compliance with the sites Environmental Permit (EPR/ ZP3795FD).

The weather on the day of the inspection was fair with no rain or wind. The site is in an area of Cardiff known for scrap metal and ELV operators. This area in particular sees a sizable throughflow of scrap metals. This section of the site operates under a bespoke permit which allows EMR to undertake manual depollution of waste motor vehicles; as well as the; sorting, separation, baling, compacting, and or cutting using hand-held equipment.

No parts salvage is undertaken at EMR as no members of the public are allowed access to the site. As such, the vehicle shells are allowed to be stacked higher than typically seen at a public access end of life vehicle yards where parts may be removed for re-sale.

We reported to the site office above the weighbridge upon arrival and met Mr. Kristian Mardon, a weighbridge operator and discussed our intention to inspect the site. Mr. Mardon informed us that the site and area managers were currently on their way back from a site visit at another location, however he said that he was happy to accompany us on the visit. A recently appointed director, Mr. Mark Sacker also accompanied us on this visit.

We arrived at the depollution barn which is midway through the site. The depollution infrastructure is well maintained and in good order. The site utilises vacuum pumps to remove fluids, and has a high access point so that vehicles undertaking depollution can be worked on from underneath and above at the same time. The hard service is in good order and is cambered so that if a major spill was to occur then the fluids would remain within the barn.

Batteries were kept in a specialist battery box. The box at the time of inspection was full, and the operator within the barn said that he was awaiting more to return from the disposal facility. All fluids extracted from the vehicles w kept in individual containers which were clearly labelled.

Vehicles are removed from the barn when the depollution process is completed and are placed onto piles awaiting transport from the facility.

The site is secured by a boundary fence and an electronic gate. The fencing and gate which are substantial, were all in a good state of repair during the site visit. The site has high definition CCTV and has thermal monitoring in place for certain waste stock piles.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.

Full list of Industry and Waste action criteria (used in section 1 and 2):

A: Permitted activities

- A1 Specified by permit

B: Infrastructure

- B1 Infrastructure – Engineering for prevention and control of emissions
- B2 Infrastructure – Closure and decommissioning
- B3 Infrastructure – Site drainage engineering (clean and foul)
- B4 Infrastructure – Containment of stored materials
- B5 Infrastructure – Plant and equipment

C: General management

- C1 General management – Staff competency/training
- C2 General management – Management system and operating procedures
- C3 General management – Materials acceptance
- C4 General management – Storage, handling, labelling and segregation

D: Incident management

- D1 Incident management – Site security
- D2 Incident management – Accidents, emergency and incident planning

E: Emissions

- E1 Emissions – Air
- E2 Emissions – Land and groundwater
- E3 Emissions – Surface water
- E4 Emissions – Sewer
- E5 Emissions – Waste

F: Amenity

- F1 Amenity – Odour
- F2 Amenity – Noise
- F3 Amenity – Dust/fibres/particulates and litter
- F4 Amenity – Pests/birds and scavengers
- F5 Amenity – Deposits on road

G: Monitoring and records, maintenance and reporting

- G1 Monitoring and records, maintenance and reporting – Monitoring of emissions and environment
- G2 Monitoring and records, maintenance and reporting – Records of activity, site diary/journal/events
- G3 Monitoring and records, maintenance and reporting – Maintenance records
- G4 Monitoring and records, maintenance and reporting – Reporting and notification to Natural Resources Wales

H: Resources efficiency

- H1 Resource efficiency – Efficient use of raw materials
- H2 Resource efficiency – Energy efficiency

Enforcement response

Any permit condition non-compliance is an offence and we may take legal action against you. Action we take can include prosecution, serving a notice on you and/or suspension or revocation of your permit. See our Enforcement and Sanctions Guidance for further information.

Data protection notice

You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

Disclosure of information – this report will be available to view on-line

If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within 20 working days to let you know if we agree to your request.

What do I do if I disagree with the report or have a complaint?

If you disagree with this compliance assessment report, you should contact the lead officer without delay to discuss your concerns.

If you are unable to resolve the issue with the lead officer or their line manager you should contact our Customer Contact team on 0300 065 3000 (Monday to Friday 08:00 – 18:00), or email enquiries@naturalresourceswales.gov.uk for details of how to raise your dispute further through our Complaints and Commendations procedure.

If you are dissatisfied with our response, you can contact the Public Services Ombudsman for Wales by phone on 0300 7900203 or by email at ask@ombudsman.wales

Welsh Language Standards

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
