

CONTROL OF POLLUTION ACT 1974  
PART I

OUTGOING

PERMIT

WASTE DISPOSAL LICENCE

THE ~~PRESLI~~ Pembrokeshire District Council

HEREBY GRANT a Waste Disposal Licence, pursuant to an application dated  
25th May, 1991, in respect of the following:

Full name and address of licence holder	Mansel Davies & Sons Limited, Station Yard, Llanfyrnach, Crymych, Dyfed.
Full name and address of local representative (if any) of licence holder	As above
Location of site to which this licence relates	Glogue Quarry, Near Llanfyrnach
Form of deposit or disposal to which this licence relates	Waste Oil Transfer Station
Types of waste of which deposit or disposal is authorised and any limitation as to quantity	Waste oil and oil/water mixtures

This Licence is granted subject to the following conditions:—

- Schedule A - Which contains certain definitions
- Schedule B - Which contains details of works that are required to be carried out
- Schedule C - Which defines the types of wastes permitted to be stored
- Schedule D - Which sets out the method of operation of the transfer station

Dated

20/1

19 92

(Signed)

Director of Housing and Environmental Health  
(Designation)

THE LICENCE HOLDER SHOULD READ CAREFULLY THE NOTES OVERLEAF.

\* Insert name of Waste Disposal Authority.

TRANSFER STATION LICENCE

CONTROL OF POLLUTION ACT 1974

LICENCE TO DISPOSE OF WASTE

LICENCE NUMBER WD 042

The Preseli Pembrokeshire District Council in pursuance of the powers conferred on them by the Control of Pollution Act 1974, hereby licence:

Mansel Davies and Son Limited

of Station Yard, Llanfyrnach, Crymych, Dyfed  
(hereinafter called the "licence holder")

to operate a transfer station involving the reception, storage and  
onward transfer of waste oils and oil water mixtures

on land situated at Glogue Quarry, Near Llanfyrnach.

This licence is granted subject to the conditions set out in the  
schedules attached hereto.

Dated this 20th ..... day of January ..... 19 92

Signed ..... Alan E. Ruff .....  
Director of Housing and Environmental Health

The licence holder's attention is drawn to the notes overleaf

## NOTES

THESE NOTES ARE FOR GENERAL GUIDANCE ONLY AND DO NOT CONSTITUTE AN  
AUTHORITATIVE STATEMENT OF THE LAW

1. This licence relates only to the requirements of the Control of Pollution Act 1974 for the deposit of waste and the use of plant or equipment subject to the conditions set out in the Schedules and does not constitute a consent required by other legislation. In particular it is the responsibility of the licence holder to comply with any requirements of the HEALTH AND SAFETY AT WORK ACT 1974, the RADIOACTIVE SUBSTANCES ACT 1960, the TOWN AND COUNTRY PLANNING ACTS, BUILDING REGULATIONS and ALL RELEVANT WATER PROTECTION and ENVIRONMENTAL HEALTH legislation.
2. If the licence holder ceases to occupy the land specified above, then he may transfer the licence to the new occupier after giving notice to the Waste Disposal Authority who has the right to decline to accept the new licence holder.
3. If the licence holder wishes to cancel this licence he must return it to the Waste Disposal authority together with a notice stating that he no longer requires the licence. Cancellation of the licence will not affect any outstanding liability of the licence holder under the conditions of the licence.

### CONTRAVENTION OF LICENCE CONDITIONS

Your attention is drawn to the provisions of Sections 3, 9 and 16 of the Control of Pollution Act 1974. A brief resume is included below.

#### Section 3

Prohibits under penalty the deposits of waste or the use of plant or equipment, otherwise than in accordance with the terms of the licence. This Section applies to all the conditions contained herein, including any which may be the subject of an appeal to the Secretary of State under Section 10 of the Act. Any deposit which takes place without compliance with all the licence conditions may lead to prosecution under this Section.

#### Section 9

Non compliance with any licence conditions may lead to the revocation of this licence.

## Section 16

The licensing authority is empowered to require the removal of any controlled waste deposited in circumstances where any of the conditions of this licence are not being complied with.

## Penalties under Section 3

A person who contravenes Section 3 sub section (1) shall, subject to sub section (4), be guilty of an offence and liable on summary conviction to a fine of an amount not exceeding scale 5 (currently £2,000) or on conviction on indictment to imprisonment for a term not exceeding two years or a fine or both.

The increased penalty may be given where a person contravenes Section 3 (1) and the waste in question is poisonous, noxious and polluting, is likely to give rise to an environmental hazard, and has been brought for the purpose of being disposed of. Under such circumstances the person would be liable on summary conviction to imprisonment for a term not exceeding six months or a fine not exceeding scale 5 or on conviction on indictment to imprisonment for a term not exceeding five years or a fine or both.

## SCHEDULE A - DEFINITIONS

The following meanings shall apply throughout this licence:

1. WORKING PLAN shall mean the operational statement together with Drawing Numbers MD1, MD2, MD3 of the proposed facility in Schedule E.
2. THE ACT shall mean the Control of Pollution Act 1974 as amended.
3. DISPOSAL AUTHORITY shall have the meaning assigned to it in Section 30 (1) of the Control of Pollution Act 1974.
4. DULY AUTHORISED OFFICER shall mean any person authorised in writing by the Disposal Authority pursuant to Section 91 (1) of the Control of Pollution Act 1974.
5. ENVIRONMENTAL HAZARD shall have the meaning assigned to it in Section 4 (5) of the Control of Pollution Act 1974.
6. LICENCE HOLDER shall mean the person or persons to whom this licence is granted.
7. DESIGNATED OFFICER shall mean the person, nominated by the licence holder, responsible for the security and satisfactory operation of the facility.
8. COMPETENT PERSON shall mean a person who, through training and/or qualification is able to identify the nature of waste arriving at the facility by conducting appropriate chemical analysis and is able to assess the compatibility of that waste with other wastes stored at the facility.
9. APPROPRIATELY QUALIFIED PERSON shall mean a recognised Consultant Engineer or other such appropriately qualified persons as may be approved in writing by the Waste Disposal Authority.
10. SPECIAL WASTE shall have the meaning assigned to it in Section 2 (1) of the Control of Pollution Act (Special Waste) Regulations 1980.
11. FLAMMABLE shall have the same meaning as Schedule 1, part 1, of the Classification, Packaging and Labelling of Dangerous Substances Act 1984.

12. DRUM CONTAINER shall mean any container in which material is stored. Such containers having storage capacities less than 10 litres or greater than 250 litres shall not be regarded as drum containers for the purpose of this licence.
13. EMERGENCY shall mean a case where a person has reasonable cause to believe that circumstances exist which are likely to endanger life or health or cause damage to property or pollution of water.
14. OPERATING shall mean the deposit of waste or acceptance of waste for deposit and all matters incidental thereto.
15. Notwithstanding the above, words and phrases in this licence have the meaning ascribed to them by the Control of Pollution Act 1974 and its associated regulations.

## SCHEDULE B - SITE PREPARATION

1. The preparatory works required by paragraphs 2 to 10 below shall be supervised and certified, by an appropriately qualified person, that they have been constructed in accordance with the working plan. Certification shall be forwarded to the Waste Disposal Authority and no waste material shall be accepted at the facility until the Waste Disposal Authority confirms in writing, that the site preparatory works have been carried out in accordance with the working plan.

### Site Infrastructure

2. Perimeter fencing and gates shall be provided and maintained at all times in accordance with the working plan. The gates shall be securely locked at all times when the facility is unattended. Any damage to the gates and fencing which impairs their effectiveness will be repaired by the end of the working day and if this cannot be accomplished the licence holder shall provide security personnel, to guard the facility until such repair is effected.
3. An identification board of durable material and finish shall be displayed at the entrance to the facility, as indicated in the working plan. The following information shall be provided:
  - (a) Name, address and telephone number of facility;
  - (b) Name, address and telephone number of the Waste Disposal Authority responsible for issuing this Licence and the Waste Disposal Licence Number;
  - (c) Hours of Operation (as per licence condition);
  - (d) Name, address and telephone number of Licence Holder;
  - (e) Twenty-four hour emergency telephone number and contact.

The board shall be maintained in a legible condition at all times.

4. The road from the site entrance to the site control office (hereinafter called the site access road) shall be constructed in accordance with the working plan. The site access road shall be maintained to the original standard as specified in the working plan.
5. Site drainage facilities shall be constructed and maintained in accordance with the working plan so that water does not accumulate at the facility. These shall include interception of contaminated surface waters and spillages, to prevent water pollution.

6. Artificial lighting shall be provided for those operations which are to be carried out during the hours of darkness, as defined by the statutory lighting up times published by the Science Research Council, at the locations specified and as specified in the working plan. The lighting shall be maintained to the original standard as specified in the working plan.
7. Storage containers for liquids shall be of a type and construction suitable for the liquids which they contain and labelled to show their contents. They shall conform, where necessary, to all relevant safety and construction standards and shall be installed at a location and to specification in accordance with the working plan. The containers shall be maintained to the original standard as specified in the working plan.
8. The yard area at the facility shall be surfaced and maintained in accordance with the working plan. Hard surfaces shall be steam cleaned as necessary or when requested by the Waste Disposal Authority.
9. Provision shall be made within the confines of the facility for the parking, loading and unloading of vehicles transporting wastes to and from the facility in accordance with the working plan.

#### Emergency Plan

10. An emergency plan shall be provided within two months of the granting of this licence detailing the procedures to be adopted in the event of the release of any hazardous material, liquid or gas. The Health and Safety Executive, British Gas, the local Environmental Health Department, National Rivers Authority, the emergency services and the Waste Disposal Authority shall be consulted when drawing up these procedures.
11. The emergency plan required by condition 14 above shall be reviewed at six monthly intervals and it shall also be updated whenever necessary to take account of changes in personnel or other circumstances. The updated emergency plan shall be forwarded forthwith to the Waste Disposal Authority.

## SCHEDULE C - TYPES OF WASTE

### Permitted Wastes

1. The types of waste accepted at the facility and the maximum quantity stored at the locations specified in the working plan shall consist only of the following:

<u>Waste</u>	<u>Maximum Quantity</u>	<u>Location</u>
Oil/water mixture Lubricating oils	24,000 gallon	Underground storage tanks

### Excluded Wastes

2. Notwithstanding the generality of the types of waste specified in this Schedule the following wastes shall be specifically excluded from delivery to the facility.
  - (a) Controlled waste being defined as "Special Waste" in the Control of Pollution (Special Waste) Regulations 1980 and any subsequent amendments, except those listed in paragraph 1 above.
  - (b) Substances within the Control of Radioactive Substances Act 1960 and any subsequent amendments.
  - (c) Percussives and explosives and other substances with similar characteristics, excepting where such wastes are in such a form or state where the percussive or explosive properties are and will remain ineffective.
  - (d) Any waste containing substances listed in the Highly Flammable Liquids and Liquefied Petroleum Gases Regulations 1972.
  - (e) Any substance listed by the United Kingdom Government under the provisions of the European Community Directive on Pollution Caused by Certain Dangerous Substances Discharged to The Aquatic Environment (76/464/EC) and listed in Annex 1A of the Final Declaration on the Third International Conference of the North Sea 1990.

#### SCHEDULE D - OPERATIONS

1. The licence holder shall operate the facility in accordance with the working plan as approved by the Waste Disposal Authority and contained in Schedule D of this licence.
2. Any proposed modification to the approved working plan shall be submitted to the Waste Disposal Authority together with the proposed date of implementation at least 12 weeks before the proposed date of such implementation.
3. The licence holder shall obtain written approval from the Waste Disposal Authority for any proposed modification to the actual conduct of the operations from the proposals approved in the working plan.
4. The types of wastes accepted at the facility shall consist only of those specified in Schedule C of this licence, and which by previous sampling and analysis have been shown to conform with the requirements of Schedule C of this licence. Any wastes not conforming to the requirements of Schedule C shall be rejected as unsuitable for disposal at the facility.
5. Each container used for storage shall be of sound physical condition and marked with the waste type title as detailed in the working plan. Wastes shall be stored according to waste types in the segregated storage areas as detailed in the working plan.
6. The Waste Disposal Authority shall be notified immediately of any waste that has been rejected as unsuitable for disposal in accordance with condition 4 above and Schedule C of this licence. This notification shall include the nature and quantity of waste, the name and address of the producer of the waste, the registration number of the vehicle delivering the waste, the name and address of the vehicle's driver and operator, and the date and time of rejection of the waste.
7. The facility shall be manned and supervised during operating hours (see paragraph 6 above) in accordance with the working plan. supervisors must be able to identify the types of waste permitted by this licence and those wastes specifically excluded.

8. Permitted wastes shall be delivered to and removed from the facility between the hours specified below. Except in cases of emergency, no delivery or removal of waste shall take place outside these hours without the prior approval of the Waste Disposal Authority. All circumstances of emergency movement of such wastes shall be reported forthwith in writing to the Waste Disposal Authority.

Mondays - Fridays	From	0800 hours
	To	1800 hours
Saturdays	From	0800 hours
	To	1800 hours
Bank Holidays	From	0800 hours
	To	1800 hours

9. A written record shall be kept of the characteristics and quantities of all wastes delivered to the facility, the name and address of the person delivering the waste, the registration number of the vehicle delivering the waste, the date and time of the delivery, and identification of the origin of the waste. This record shall be available to any representative of the Waste Disposal Authority for inspection at the facility at any reasonable time.
10. A summary of the records required by paragraph 9 above of all wastes delivered to the facility in a calendar month shall be submitted to the Waste Disposal Authority before the tenth day of the succeeding calendar month.
11. No waste material shall be burnt within the boundaries of the facility. Any outbreak of fire shall be regarded as an emergency and immediate action shall be taken to extinguish it. Fire fighting equipment and emergency water supplies shall be provided, maintained and identified in accordance with the working plan. All outbreaks of fire shall be reported immediately to the County Fire Brigade and the Waste Disposal Authority.
12. In the event of an emergency, the appropriate procedures specified in the emergency plan required by paragraph 10 of Schedule B shall be implemented. The Waste Disposal Authority shall be informed forthwith of any emergency. The circumstances of an emergency shall be confirmed to the Waste Disposal Authority in writing as soon as is practicable.

13. Measures, in accordance with the working plan, shall be taken to remove any mud, debris or any other material that is deposited on any roadway by vehicles using the facility. These measures shall include the sweeping of the site access road, hard surfaced areas and the public highway leading from the facility.
14. Measures in accordance with the working plan shall be taken to prevent damage to pipework, valves, pumps and storage tanks which may cause pollution of water, danger to public health or be seriously detrimental to the amenities of the locality.
15. Any spillage shall be dealt with immediately to prevent water pollution. Quantities of sand/absorbent material shall be kept at the facility as detailed in the working plan and used on appropriate spillages.
16. Cleaning chemicals and re-agents shall be stored and segregated according to compatibilities as detailed in the working plan.
17. Measures in accordance with the working plan shall be taken to deal effectively with any vermin and insects at the facility.
18. Measures, including proper maintenance and use, shall be undertaken to control the noise of machinery and vehicles operating at the facility which may be detrimental to the amenities of the locality.
19. Measures in accordance with the working plan shall be taken to effectively suppress dust and malodours which may be detrimental to the amenities of the locality.
20. Any cessation of operations for a period in excess of 12 weeks shall be notified to the Waste Disposal Authority. Not less than 14 days notice shall be given to the Waste Disposal Authority of the date on which operations are to recommence in the event of such a cessation.
21. A copy of any notice or instruction received in respect of the facility from any authority, other than the Waste Disposal Authority, which in any way relates to the use of the facility, shall be given to the Waste Disposal Authority within 3 days of the receipt of such a notice or instruction.
22. The terms of this licence shall be made known to any person who is given responsibility for the management or control of the facility and be available at all times at the facility for the use of such persons.
23. All site operations shall be carried out in accordance with the licence holder's safety policy entitled "Safe Working Practices" attached to the working plan in Schedule E.

24. Notwithstanding the generality of the conditions in this Schedule, the activities to which this licence relates shall not be carried on so as to cause pollution to water or danger to public health or become seriously detrimental to the amenities of the locality affected by the activities.
