1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
WQ-C1 - Water Quality - Emissions and monitoring - Emissions to water	C4 No impact	3.1

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WQ-C1	No further action is required. Non-compliant CAR form issued due to the 3 month reporting period having been exceeded. A reminder to ensure that reports are submitted in compliance with the permit conditions.	07/02/2025

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

A Trigger Exceedance Notification (TEN) report was received from Dwr Cymru Welsh Water (DCWW) after the level sensor triggered a 6th spill on 27 September 2023. In response to the TEN report, which was received on 26 October 2023, Natural Resources Wales (NRW) issued a Compliance Assessment Report (CAR_NRW0042776) with an action to:

'Whilst you are compliant with Condition 3.1.2 (a) you also need to comply with Condition 3.1.2 (b) of the permit within the required 3 month period. Condition 3.1.2 (b) requires you to "provide a reason for the Trigger Exceedance and a description of any remedial action undertaken or proposed. Where the reason/s for the Trigger Exceedance cannot be identified within the 3 months of the Trigger Exceedance the operator must provide a proposal with timeframes for a full investigation to be carried out to identify the reason/s for the Trigger Exceedance for approval by Natural Resources Wales;"

'You will need to comply with condition 3.1.2 (b) by the 30 December 2023, which is 3 months from the date of the trigger exceedance.'

While the Final Report for the TEN Investigation has been accepted, this was received by NRW on 19 April 2024, which exceeds the 3 month period required by permit Condition 3.1.2 (b).

This CAR form has been issued to provide DCWW with advice and guidance, acting as a reminder that there is a requirement to adhere to timescales that are outlined within the permit conditions as a delay in the response results in a non-compliance of the permit.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
