How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

BOC Annual Returns 2024

Site Description

BOC Limited operate an installation for the production of hydrogen and carbon monoxide by a steam reforming process that uses natural gas and propane as feedstocks at Margam in South Wales. The reforming of natural gas is a listed activity under Schedule 1 of the EPR Regulations Section 1.2 Part A(1)(b).

Purpose of the Assessment

Monitoring returns and reports for the following period(s) have been assessed in this CAR form:

- Reporting of emissions to air for the period from 1 Jan 2024 to 31 Dec 2024
- Reporting of emissions to sewer for the period from 1 Jan 2024 to 31 Dec 2024
- Reporting of other performance indicators for the period 1 Jan 2024 to 31 Dec 2024
- Reporting of Energy Usage for the year: 2024
- Reporting of Water Usage for the year: 2024

This CAR was undertaken on 6 February 2025. However, to ensure that the CCS scoring is attributed to the correct financial year (for billing) the date on the CARS has been altered to 31 December 2024.

Compliance Assessment

Table S5.1 of the permit states that the annual reporting period for emissions begins on the 1 November, NRW have previously agreed to realign this reporting period to 1 January. Schedule 4.2.1 of the permit states that the reports on the performance activities shall be submitted to NRW by the 31 January. Schedule 4.2.2 of the permit states that the monitoring reports for the parameters outlined within table S5.1 must be submitted within 28 days of the end of the reporting period. The operator submitted the annual reports on the 29 January 2025 in compliance with permit requirements.

Emissions to Air

The operator submitted the *Reporting of emissions to air for the period from 1 Jan 2024 to 31 Dec 2024* in the agreed reporting format (Form Number: Air1 / 25/04/07).

All reporting parameters within Emission Limit Values stated within the permit - No exceedances reported. No reporting for Emission Point A1 as plant has been on shutdown since 01/01/2011.

Emissions to Sewer

The operator submitted the Reporting of emissions to sewer for the period from *1 Jan 2024 to 31 Dec 2024* in the agreed reporting format (Form Number: Sewer1 / 25/04/07) Reporting parameter within Emission Limit Values stated within the permit - No exceedances reported.

Performance Reports

The following reports have been submitted to NRW in line with permit conditions, in the agreed reporting forms (Form Performance1, Form Water Usage1, Form Energy1), as outlined in Table S5.4; Water Usage, Energy Usage, Total mass emissions to air, Total raw material used, Annual Production Hydrogen. No issues noted.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
