What is the project title?
DragonLNG limited Milford Haven Marine Survey

Briefly describe what you want to do

Dragon LNG require a survey of the area affected by the proposed construction and operation of a new jetty, comprising a DropDownVideo (DDV) survey, and the collection of sediment and faunal grab samples. Whilst the intertidal walkover survey does not require a Marine Licence, the collection of sediment and faunal samples requires a Band 1 Marine Licence from Natural Resources Wales (NRW). The objective of the survey is to confirm whether there are any aspects of the existing baseline (ecological and/ or UXO) that could affect obtaining the required consents for the construction and operation of the proposed jetty. The works will be undertaken in the daytime with surveys anticipated to take 4 days.

The proposed survey vessel is the 'Sea Leopard', a 10m local vessel based out of Milford Haven. The vessel is suitable for the proposed scope of work having carried out similar projects in the area previously. It is equipped with a hydraulic winch and Aframewhich will allow for the operation of the grab and camera required for sampling.

When do you want the licence to start?

Band 1 licences are typically issued for one year, subject to consultation.

Make sure the date you provide is on or before the day you want to start carrying out the work.

Licence start date 01/03/2025
