## 4. Details of our assessment

### Introduction

This Compliance Assessment Report (CAR) is an assessment of the annual reporting submission, which was provided by Tata Steel UK Ltd (the Operator) for their Port Talbot Site covering the 2024 calendar year period.

### Scope

The following monitoring returns and reports have been assessed within this Compliance Assessment Report (CAR):

- Table S3.9 Annual Returns 2024.
- Table S4.3 Annual Returns 2024.
- Table S3.9 Annual Returns 2024 Air.
- Table S4.2 Annual Production Treatment.
- Table 4.3 Air 2024.

### 2024 Annual Submission

The aforementioned reports were submitted by the Operator on the 28<sup>th</sup> of January 2025, which was within the timeframe (by the 31<sup>st</sup> of January 2025) specified by permit condition 4.2.3. Furthermore, the submitted reports detailed the informative requirements (Schedule 4: Table S4.2 and S4.3) which were outlined by permit condition 4.2.3b and 4.2.3c.

The Operator did not exceed the annual limits (outlined within Schedule 3: Table S3.9A) for emissions to controlled waters and as a result, is compliant with permit condition 3.1.5. Annual limits of the specified parameters to atmosphere will be reported following the Pollution Inventory Submission.

**Please note:** This CAR report and assessment was undertaken on 24<sup>th</sup> of February 2025. However to ensure that the non-compliance score is attributed to the correct financial year (for billing) the date on CARS system has been altered to 31<sup>st</sup> of December 2024.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

### How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

**If your assessment result in Section 1 is suspended, what does this mean?**

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
