General

No allowance has been made for sub surface entry into manholes or other chambers or voids below ground level. Therefore any details relating to depths, sizes etc. are taken from above ground and as such will be approximate only.

Should there be any conflict between the details indicated on this drawing and those indicated on other drawings, the Engineer should be informed prior to construction on site.

It is important to note that the same accuracies implied by the plotting scale are equally applicable to digital data supplied for CAD.

Every effort is made to identify all visible above ground features. However, it should be borne in mind that there may be items obscured at the time of survey.

Notes

1. Survey Control - This survey is to GPS data.
2. This drawing is to be read in conjunction with all other relevant drawings / documentation.
3. Check 10m grid before taking non-figured dimensions from this drawing.
4. If in doubt ask.
