Proposal summary

Please provide an outline of your proposal, including any sketches.

As a guide, you should include: a description of the activities which (will) take place at your site, the means of abstraction/impoundment proposed, if the proposal is related to another licence or permit (i.e. an Environmental Permit to Discharge Water) and details of any survey work undertaken. For changes to existing licences, summarise the changes proposed. Sketches or photographs that will aid our understanding of your proposal can be uploaded below.

- Surrender Breedon's consumptive abstraction licence (Licence No: 21/57/25/0047/V006) for Taffs Well Quarry, and to apply for a new Transfer Abstraction Licence. The intention is to:
- Increase the abstraction rates (changed from 454.6 m3 per day/136,380 m3 per year to 1,330 m3 per day);
- Vary the abstraction means (changed from a pump with maximum output not exceeding 45.46 m3 per hour (10 hour operation) to a pump with maximum output not exceeding 56 m3 per hour (24 hour operation)); and
- Purpose set out in the original abstraction licence (changed from industrial: for aggregate washing, cooling water in crushers, and dust suppression/washing lorries to dewatering from old mine workings (no consumptive use)).
- The abstracted water will be transferred to the quarry sump and then discharged to the River Taff or if the water is clean (i.e., not requiring settlement) it will be discharged directly to the River Taff under the current discharge consent (Consent Number: AN0222302).
