No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On 27th February 2025 at 10:00 an Officer from Natural Resources Wales carried out a Regulatory Compliance visit at DCWW asset PBONT NEWBRDG FLDS CSO, EPR permit number: BA2032003.

NRW were accompanied by a DCWW pollution Technician for that area who showed the asset, the weir and screening which was installed in 2022 due to a permit variation.

The CSO was not discharging at the time of the visit and there was no visible evidence of recent spillage. The outfall pipe was partially submerged by river levels.

The screening at the time showed evidence of ragging suggesting the asset had spilled but there appears to be some confusion regarding the use of the asset currently.

Therefore NRW would advise that DCWW carry out and provide evidence to prove that the spilled storm sewage does not reach the aquatic environment and that the asset is not currently used as a CSO. The methods for proving this were discussed and agreed upon with the Pollution Technician during the visit.

The deadline to provide this evidence is **Wednesday 2nd April 2025**.

Thanks to the Pollution Tech for his time and cooperation during the visit.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
