Routine change

Brief description of licence variation that is required. (Identify licence condition numbers and reference the supporting documents within your current licence which are likely to be affected)
In accordance with condition 1.3 the validity of the above licence will expire on the 30 June 2025. Due to various unforeseen circumstances, the contract has been delayed and is now scheduled to be completed on 5th September 2025. At this point in time, it is understood that most of licensable construction works are likely to be completed prior to the license expiry date, however we would like to request an extension to the license, to cover the snagging / QA process which could involve activities below the mean high water springs mark, such as identifying and fixing any imperfections that may arise during the main Scheme construction.

When are you looking to start work requiring the variation?
* 03/04/2025
