### 4. Details of our assessment

#### Site report

Environment Officers from the Cwm Taf and Bridgend Environment Team met with the hatchery manager to carry out an inspection of the site discharge permitted under EPR permit number AN0128701 for the Special Area of Conservation (SAC) rivers program. The site previously received a letter dated 28/08/2024 to explain that their permit will be varied in the future to include a limit for Phosphate. The treated effluent from the hatchery

is permitted to discharge into the Usk river which is a SAC failing phosphate targets.

The weather during the visit was bright and dry. The hatchery manager escorted us around site and showed us the fish and invertebrate rearing which occurs on site. The hatchery recycles water from the uses in the tanks by treating it biologically, with UV and ensuring solids removal prior to re-use and subsequent discharge.

The hatchery discharge is currently monitored as part of the regulatory monitoring programme, therefore the discharge was only tested for orthophosphate and phosphorous. The discharge at the time of sampling was clear with no odour.

### **Sample results**

- Orthophosphate = 0.0192 mg/l
- Phosphorous = 0.0497mg/l

These concentrations are far below the proposed limit of 5mg/l of Total Phosphorous.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

### If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
