Permit being assessed: GWSW1551

For: Llwyn Yorath Farm, held by Philip Howell Morgan

At: Bettws Bridgend Mid Glamorgan , CF32 8UP.

Type of assessment carried out: Site Inspection, Reason: Routine.

On 05/03/2025, between 12:00 and 12:30.

Parts of permit assessed: ALL

NRW Lead Officer: Emily Roe01, accompanied by: Callum Murray.

Report sent to: Mr Morgan , Permit holder, on 17/03/2025.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
WQ-A1 - Water Quality - Management - General management	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

A compliance visit for the permit was undertaken on 05/03/2025. The permit (**GWSW1115**) allows a groundwater discharge activity. Two Natural Resources Wales (NRW) Environment Officers and the permit operator were present. The weather was dry.

The permit holder explained that they've not used sheep dip for several years. The dip bath is currently in poor condition and would require repairs to be restored to a functional state. I did not see any records of past spreading data at the time of the visit, as the record retention period has now passed. I informed the permit holder that the surrender fee is currently waived, meaning they can surrender their permit for free if they no longer need it. However NRW would not be issuing a new 'dispose to land' permit if they wished to re-

apply. I have also emailed other options over to the permit holder for consideration

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
