- 3.7.2** If it is necessary for the Licence Holder to recover or remove any equipment, plant or machinery used to undertake the Licensed Activities that have been dropped as a result of an accident or emergency, the Licence Holder is permitted to do so provided that the methodology for such recovery or removal has been approved by the Licensing Authority.
- 3.7.3** The Licence Holder must ensure, in case of damage to, or destruction or decay of the authorised development seaward of MHWS or any part thereof, that could result in a danger or obstruction to navigation, notification must be issued to the NRW, Maritime and Coastguard Agency, Trinity House/NLB, the Kingfisher Information Service of Seafish and the UKHO, as soon as possible and no later than 24 hours following the identification of damage, destruction or decay.

### **3.8 Distribution of Copies of this Licence**

**Licence Number: CML2133v1**

The Licence Holder is required to ensure that a copy of this Licence is given to:

- All agent(s), contractor(s) and sub-contractor(s) whose names have been provided to the Licensing Authority under condition 3.3 and
- The Masters of any vessels and transport managers responsible for the vehicles employed in accordance with this Licence whose details have been submitted to the Licensing Authority under condition 3.2.

### **3.9 Inspection of Documents**

Copies of this Licence shall be made available at the following locations:

- at the address of the Licence Holder specified in section 1.2;
- at any site office, located at or adjacent to the Licensed Area, used by the Licence Holder or its agent(s), contractor(s) or sub-contractor(s) responsible for the loading transportation or deposit of any substances or articles permitted as part of the Licensed Activities;
- on board each vessel or vehicle carrying out Licensed Activities.

The documents referred to in this Condition shall be available at all reasonable times for inspection by officers appropriately authorised by the Licensing Authority and authorised Marine Enforcement Officers at the locations stated in that paragraph.

### **Vessels, Plant and Equipment**

#### **3.10 Notified Contractors, Vessels and/or Vehicles only to Carry out Licensed Activities**

Only those agent(s), contractor(s), sub-contractor(s), vessels and/or vehicles whose details have been notified to the Licensing Authority may operate under the terms of this Licence. Any changes must be notified to and be approved by the Licensing Authority in writing prior to any such agent, contractor, subcontractors or vehicles carrying out any Licensed Activities pursuant to or otherwise operating under this Licence.

#### **3.11 Refuelling of Plant and Equipment**

The Licence Holder must ensure that plant, vehicles and machinery are not refuelled on the foreshore or in the sea.

#### **3.12 Equipment, Structures and Access**

The Licence Holder must ensure that all equipment, temporary structures, access tracks, waste and/or debris associated with the Licensed Activities are removed on completion of the Licensed activities.

### **Safety**

#### **3.13 Removal of Deposited Material**

**Licence Number: CML2133v1**

If the Licensing Authority considers it necessary or advisable for the safety of navigation, the Licence Holder must remove any deposit specified by the Licensing Authority or Marine Enforcement Officers within one month of notice being given by the Licensing Authority, and shall not replace such material until the Licensing Authority has given its written approval.

### **Pollution control**

#### **3.14 Pollution Prevention**

The Licence Holder must ensure that pollution prevention best practice is adhered to at all times. Any incidents must be reported to the Licensing Authority as soon as possible using the hotline number **0300 065 3000**.

#### **3.15 Spillage of Pollutants**

The Licence Holder must employ bunding, storage facilities and spill kits to contain and prevent the release of fuel, oils and chemicals associated with the plant, refuelling and construction equipment into the marine environment. Secondary containment must be used with a capacity of **no less than 110%** of the container's storage capacity.

#### **3.16 Prevention of Disposal of Man-made Debris**

The Licence Holder must ensure that all reasonable precautions are taken to prevent the disposal of man-made debris to the marine environment. Such material must be removed immediately and be disposed of appropriately. If it is not possible to prevent manmade debris from entering the marine environment during the Licensed Activities, the Licensed Activities must cease immediately.

#### **3.17 Cleanliness of Equipment**

The Licence Holder must ensure that equipment, machinery and PPE are washed with freshwater and/or thoroughly airdried before deployment and before moving between locations.

### **Activity-specific Conditions**

#### **3.18 Construction Environment Management Plan**

**3.18.1** The Licence Holder must submit a Construction Environment Management Plan (CEMP) to the Licensing Authority for written approval at least **6 weeks** prior to commencement of the Licensed Activities. The CEMP must incorporate the mitigation detailed within *Appendix F Habitat Regulation Assessment*. No Licensed Activities may be undertaken prior to written approval from the Licensing Authority.

**3.18.2** The Licence Holder must ensure that any actions outlined in the documents detailed in condition 3.18.1 are implemented as approved in writing by the Licensing Authority. Any proposed changes to the actions outlined in the documents must be submitted to, and approved in writing by the Licensing Authority prior to any changes being enacted.

#### **3.19 Biosecurity Risk Assessment and Management Plan**

**3.19.1** The Licence Holder must submit a Biosecurity Risk Assessment and Management Plan to the Licensing Authority for written approval at least **6 weeks** prior to commencement of the Licensed Activities. No Licensed Activities may be undertaken prior to written approval from the Licensing Authority.

**3.19.2** The Licence Holder must ensure that any actions outlined in the documents detailed in condition 3.19.1 are implemented as approved in writing by the Licensing Authority. Any proposed changes to the actions outlined in the documents must be submitted to, and approved in writing by the Licensing Authority prior to any changes being enacted.

### **3.20 Access**

The Licence Holder must only access the Licensed Area within the area specified in Method Statement document dated 16 June 2021. Any proposed changes to the access area will need to be submitted to and approved in writing by the Licensing Authority prior to any changes being enacted.

### **3.21 Navigation**

**3.21.1** The Licence Holder must ensure that any navigational aids are returned to, or as close as reasonably practicable to, their original location following the completion of the works unless otherwise agreed in writing with the Licensing Authority.

**3.21.2** The Licence Holder must ensure that the project exhibit such lights, marks, sounds, signals and other aids to navigation and to take such steps for the prevention of danger to navigation as directed by Trinity House.

**3.21.3** The Licence Holder must provide notification to Trinity House detailing the availability of aids to navigation.

### **3.22 Percussive Piling Soft-start Procedures**

The Licence Holder must ensure that if percussive piling is used, soft-start procedures are used to ensure incremental increase in pile power over a set time period until full operational power is achieved. The soft-start duration should be a period of no less than 20 minutes. Should piling cease for a period greater than 10 minutes, then the soft start procedure must be repeated.

### **3.23 Piling Timing Restriction**

The Licence Holder must ensure piling activities are undertaken at low tide.

### **3.24 Construction Time Restrictions**

The Licence Holder must ensure that no Licensed Activities within water in the estuary take place between 01 April and 31 October inclusive, without prior written approval from the Licensing Authority. This includes the transfer of materials to and around site, as well as construction activities. The restriction is from the end of the existing South

**Licence Number: CML2133v1**

Pier running north east to form a right angle with the central line of the proposed new breakwater to the tidal limit of the estuary.

### **3.25 Working Hours Time Restrictions**

The Licence Holder must ensure that no Licenced Activities take place during night time hours between the North and South pier, to avoid disturbance to migratory fish.

### **3.26 Written Scheme of Investigation (WSI)**

**3.26.1** The Licence Holder must submit a WSI to the Licensing Authority for written approval at least **6 weeks** prior to commencement of the Licensed Activities. No Licensed Activities may be undertaken prior to written approval from the Licensing Authority.

**3.26.2** The Licence Holder must ensure that any actions outlined in the documents detailed in condition 3.26.1 are implemented as approved in writing by the Licensing Authority. Any proposed changes to the actions outlined in the documents must be submitted to, and approved in writing by the Licensing Authority prior to any changes being enacted.

### **3.27 Lighting Plan**

**3.27.1** The Licence Holder must submit a Lighting Plan to the Licensing Authority for written approval at least 6 weeks prior to commencement of the Licensed Activities. No Licensed Activities may be undertaken prior to written approval from the Licensing Authority.

**3.27.2** The Licence Holder must ensure that any actions outlined in the documents detailed in condition 3.27.1 are implemented as approved in writing by the Licensing Authority. Any proposed changes to the actions outlined in the documents must be submitted to, and approved in writing by the Licensing Authority prior to any changes being enacted.

### **3.28 Use of Render and Concrete**

**3.28.1** The Licence Holder must ensure that no waste concrete slurry or wash water from the use of concrete or cement are discharged into the marine environment. Concrete and cement mixing and washing areas should be contained and sited at least 10 metres from any watercourse or surface water drain to minimise the risk of runoff entering a watercourse.

**3.28.2** The Licence Holder must ensure that if concrete is to be sprayed in the vicinity of the marine environment (e.g. bridges, retaining walls, etc.), suitable pollution prevention measures are taken to prevent rebounded or windblown concrete from entering the water environment.

### **3.29 Concrete Cure Time**

The Licence Holder must ensure materials used are suitable for use in the marine environment and works should be timed to ensure maximum concrete cure time.

#### 4 INTERPRETATION
