

**DRAWING**

Proposed treated effluent drainage layout

**KEY**

-  Site boundary
-  Underground Pipe (approximate)
-  Package Treatment Plant
-  Drainage Field (approximate position)

Package Treatment Plant  
WTE Cyclone sewage treatment plant  
Sizing TBC prior to installation  
Integrated pump

Underground Pipe  
Approximate location  
Transports treated effluent to drainage field  
Minimum 1.2m depth below trafficked area

Drainage Field  
4.7m wide x 50.83m long  
3no. infiltration trenches at 0.9m wide
