Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Waste Storage

An issue was identified with waste being stored outside the building (see image below). This has been identified in several of the previous Compliance Assessment Reports (CARs).

Condition 2.3 requires that the site operates using the techniques and in the manner described in **Table 2.3 (below)**.

Table 2.3 Operating techniques

1. Unless stored or treated outside as specified waste²:
 - a) all bulking, transfer or treatment of waste shall be carried out inside a building;
 - b) all waste shall be stored in a building or within a secure container.
 - c) all waste shall be stored and treated on an impermeable surface with sealed drainage system.
2. Specified waste shall be stored and treated on hard standing or on an impermeable surface with sealed drainage system.

The mixed waste stored outside the building on the concrete floor does not fall under the specified wastes defined in **condition 4.4** of the permit. This has been scored as a **Category 3** breach of permit, furthermore, as this breach has been repeated on several occasions, NRW has deemed it necessary for a warning letter to be issued on this occasion.

Action -Please ensure that waste is managed in accordance with the environmental permit.

Site Security

No issues were identified with site security during the inspection.

Many thanks for your time during the inspection.
