

FORM WRA: Applicant details and proposal outline

Application type and fee

Please generate a reference number. It should start with "WR" followed by your organisation or company name and today's date in four-digit format (DDMM) without spaces or punctuation.

Example: WRNATURALRESOURCESWALES1101

Please use this use this number throughout this application. This reference number can also be used for your BACS reference if paying electronically.

WRMORGANSINDALL0705.2

For the application types listed, complete this form and/or the relevant additional forms named below. Tick the type of application you are applying for. Please refer to our Find out if you need a licence web-page for an explanation for the different licence types. If your proposal involves multiple licence types, tick all that apply.

See our Charges for abstraction and impoundment applications web page for details of application fees and how to pay.

New full abstraction licence. Also complete form WRD.

Please indicate how you wish to pay your application fee. If paying by BACS, please quote the reference number created in question 1 when setting up the bank transfer.

If paying by cheque, please ensure you add the six digit cheque number below.

BACS

Please add your BACS reference below

Other supporting documents

- File: Rights of access - Penrhos .png - [Download](#)

For expected rights of access, please also provide the additional evidence as outlined above.

Please tick here to show that you have done this.

Pre-application number

Have you undertaken a pre-application enquiry or had any previous discussions with us?

No

Remediation work

Is this proposal as a result of a Restoring Sustainable Abstraction programme or other work requested by us?

No

Source of supply

State where you intend to abstract from

Groundwater. e.g. Borehole, mine, unlined excavation

Provide a 12 digit National Grid Reference for the proposed or existing abstraction or impoundment point (e.g. ST 19057 76826)

SH 27604 80322

Source of supply (name of watercourse or aquifer)

Groundwater within the underlying strata (no official name)

Site name / reference
(e.g. Tŷ Mawr Farm)

Stanley Embankment

Proposal summary

Please provide an outline of your proposal, including any sketches. As a guide, you should include: a description of the activities which (will) take place at your site, the means of abstraction/impoundment proposed, if the proposal is related to another licence or permit (i.e. an Environmental Permit to Discharge Water) and details of any survey work undertaken. For changes to existing licences, summarise the changes proposed. Sketches or photographs that will aid our understanding of your proposal can be uploaded below.

The project involves the rebuild of a 132kV substation at ~3km underground cable removal and replacement. It will involve excavating at the substation site and along the cable route in order to remove the existing cable in the ground, and replace with the new cable.

The water will be pumped from the excavations using a combination of submersible pumps and static pumps (depending on specific flow rates). The excavations will have sumps excavated at regular intervals into which the water will accumulate. The sumps will only be as deep as necessary to keep the base of the excavation dry.

Declaration

By signing below, you are declaring that, to the best of your knowledge; the information given in this form, on any map and in any supporting or additional information; is true.

Signed Peter Kirk
Print name Peter Kirk
Position Managing Director for Energy

If an agent is to sign on behalf of the Licence Holder, a letter of authorisation from the Licence Holder is required.
