Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Compliance inspection undertaken of Cardiff Ocean Park SPS AN0267601 by Environment Officers Harry Warburton, Hannah Jenkins and Alex Grainger accompanied by DCWW.

Ocean Park SPS is located on site at Cardiff STW and next to Central SPS. Ocean Park SPS acts as a backup storage and discharge for Central SPS when the capacity is reached

in storage and discharge due to rainfall, as well as being tidal locked. The DCWW operators mentioned this asset hardly ever spills due to the specific requirements for the discharge.

This asset shares a screen and discharge point with Central. The operators mentioned that maintenance on this asset is linked to Central SPS and often scheduled after the summer. It would be preferable for the maintenance at these assets to be done prior to the bathing season so that any issues are addressed and fixed prior to this. This will also be stated in the CAR for Central SPS.

Action:

- Review the maintenance schedule for this asset so that it is done prior to future bathing seasons.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
