How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
IR3B	TSUK is to submit their proposal regarding the installation of the new liner (or suitable alternative options) beneath the clarifiers, including details of its composition, specifications and installation methodology for review.	20/06/2025
IR3B	TSUK is to update NRW regarding their proposal to increase the frequency of thermal drone surveys following the review by Veolia, with relevant documentation updated with the new frequency. Evidence of proposed frequency and documentation updates to be submitted to NRW.	16/05/2025
IR3B	TSUK/Veolia is submit to NRW records detailing any preventative maintenance that has been implemented along the impacted section of the flume (within the ETP).	16/05/2025
IR3B	TSUK to provide a feasibility study of providing appropriate secondary containment (in line with CIRIA 376) for the effluent flume. This study should also detail potential alternative options (if any) should secondary containment be deemed unfeasible. Conclusions generated by the study should be sufficiently justified for review by NRW.	01/08/2025
IR3B	TSUK to submit to NRW a proposal regarding the installation of additional groundwater monitoring boreholes to provide coverage for the ETP area (in addition to potential upstream gradients). Should any constraints impede the installation of these wells, such information should be provided to NRW for consideration.	02/05/2025
IR3B	TSUK to provide the results of the three effluent composition samples (taken from the three agreed points in the flume) to NRW following analysis by a suitably accredited laboratory.	02/05/2025

Compliance criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
