### 2. What action is required?

Criteria	Action needed	Complete by
WQ-C1	Undertake a root cause investigation into the exceedance(s) and take appropriate action where necessary to reduce risk of occurring again. Please report the findings of your investigation and list of actions taken	30/03/2025

Action criteria codes are listed in the 'Important information' section below.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

**The purpose of report is to record the notification of a OSM exceedance**

Permit version in effect - 25/05/2023

On 12 March 2025, Natural Resources Wales (NRW) received an OSM exceedance notification for Crynant WwTW (BA2001101).

The notification informed us that on the 04 March 2025 a routine OSM sample was taken and the following parameter(s) had exceeded the Look Up Table (LUT) limits as described in the permit:

	Det	Result mg/l	Max	LUT	Sample freq.
04/03/2025	BOD	16	38	10	12

This is the **second** exceedance within the previous 12 months and in accordance with condition 3.1.2 the LUT limit can be exceeded twice in any period of 12 consecutive months provided the MAX limit is not breached. Therefore this exceedance is not currently considered a breach of the permit conditions.

**Action:** Undertake a root cause investigation into the exceedance(s) and take appropriate action where necessary to reduce risk of occurring again. Please report the findings of your investigation and list of actions taken.

**Due date - 30 April 2025**

**END**

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

### If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
