

Compliance Assessment Report CAR_NRW0046742

Permit being assessed: BW2902901

For: BRYNDULAIS (SWO 2A), held by DWR CYMRU CYFYNGEDIG

At: Bryndulais Farm, Seven Sisters, Neath, SA10 9EE.

Type of assessment carried out: Report/Data Review, Reason: Routine.

On 31/12/2024.

Parts of permit assessed: 3.1.1 The operator shall, unless otherwise agreed in writing by Natural Resources Wales, undertake the monitoring specified in the following tables in schedule 3 to this permit: (a) point source emissions specified in tables S3.1 and S3.4.

NRW Lead Officer: Chris Palmer.

Report sent to: CARS Mailbox, CARS Mailbox, on 26/03/2025.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
WQ-C1 - Water Quality - Emissions and monitoring - Emissions to water	C2 Significant	3.1.1 The operator shall, unless otherwise agreed in writing by Natural Resources Wales, undertake the monitoring specified in the following tables in schedule 3 to this permit: (a) point source emissions specified in tables S3.1 and S3.4.

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WQ-C1	Please explain what action you will take to increase the EDM operational time to ensure compliance with the permit conditions	28/04/2025

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

We are currently considering taking enforcement action against you for the non-compliance recorded above. We will contact you in due course.

4. Details of our assessment

The purpose of report is to assess and record compliance, relating to Event Duration Monitoring annual return

During a routine compliance assessment check that we have carried out on 26 March 2025 it was noted that the EDM operational time for this asset was less than the minimum of 90%.

The operational time provided in the 2024 EDM Annual return for BW2902901 - Bryndulais (CSO 2A) was 0%.

Non-Compliance - CCS 3 - Condition 3.1.1 states - The operator shall, unless otherwise agreed in writing by Natural Resources Wales, undertake the monitoring specified in the following tables in schedule 3 to this permit: (a) point source emissions specified in tables S3.1 and S3.4.

Guidance for scoring the non-operational time suggests that this is a Category 2 non-compliance because the EDM is operational for 0-10% of the calendar year. The lack of data makes it unlikely that the operator can confidently assess the performance of the asset. It also suggests that the overflow is receiving inadequate, or no monitoring and that the operator has not resolved operational issues in a timely manner.

Actions – please carry out the actions specified above to comply with permit condition - **Due 28 April 2025**

END

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
