Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

At this time, we are issuing you with a warning for the non-compliance recorded above. Warnings may influence future enforcement response for continued or further non-compliance.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

This CAR contains a WARNING

OSM Failure. Max Limit 64mg/l for BOD. Recorded at 78mg/l on 14/3/25.

DCWW's investigation revealed that the exceedance was primarily caused by a failure in the aeration system, specifically due to a blower operating incorrectly and changes to the operational blowers' control system because of contractor interaction, unforeseeable by the DCWW. Stating that the Failure was due to '*Abnormal operating conditions: failure caused by circumstances which were unforeseeable and not due to the fault of the operator or its agents.*'

The permit states that *1.1.1 The operator shall manage and operate the activity: (b) using sufficient competent persons and resources.*

Therefore, it is DCWW's responsibility to ensure that those operating the site (either in part, or in its entirety) do so as not to cause any permit breaches, OSM failures, or otherwise.

The failure is not due to vandalism, fire, theft, sabotage, etc. So we do not consider this Failure to be due to unforeseeable or exceptional circumstances.

It is noted that the site has subsequently returned to normal operation.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
