Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

During a routine compliance assessment check that we have carried out on 4/4/2025 it was noted that the EDM operational time for this asset was less than the minimum of 90%.

The operational time provided in the 2024 EDM Annual return for permit number CG0162901 Pentre Ddu CSO, Betws y Coed was 84.61%.

Condition 3.1.1 from the permit states that "The operator shall, unless otherwise agreed in writing by Natural Resources Wales, undertake the monitoring specified in the following tables in schedule 3 to this permit: a). point source emissions specified in tables S3.1 and S3.4."

Guidance for scoring the non-operational time means this had a CCS4 potential impact.

Please explain what action is being taken to resolve these issues to ensure compliance with the permit conditions, or a **reasonable** timescale for improvement.

Please note that further non-compliance with permit conditions may result in additional enforcement action being considered.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.
