WQ-B2 - Water Quality - Operations - The site	Assessed (A)	
WQ-A1 - Water Quality - Management - General management	Action only (X)

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

The site was fenced off so it was not possible to undertake a close inspection of the plant. The fence was very overgrown and the site inside the fence also appeared to be overgrown. The site should be managed so that excessive vegetation growth is avoided. This can ultimately damage the plant, disrupt the drainage field, or impede access or visibility for future inspections. No obvious signs of pollution were recorded.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.
