Total non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Natural Resources Wales (NRW) Waste Regulation apprentice Mark O'GORMAN, NRW Officer Chris BURGE attended Silent Valley Waste Services Limited, Beechwood House, Cwm, Ebbw Vale NP23 6PZ, at 11.00am on Friday 13th June 2025 to conduct an unplanned site inspection of permit site EPR-MP3895FT. The weather conditions were clear, sunny and dry. Officers O'GORMAN and BURGE met with site supervisor Mr Darren ROBERTS who accompanied them around the permitted boundary.

PERMIT INSPECTION

At the time of the inspection the site was operational. Darren ROBERTS drove officers O'GORMAN and BURGE around the operational site and were shown and explained the waste storage procedures for the site. All waste streams have separate bays and containers. No waste was outside of its designated bay or container, or exceeded storage pile limits. All Aerosol cans were contained in closed storage containers in order to enhance fire mitigation methods, and reduce risk of fire. The house keeping of the site was of a good quality, with staff cleaning throughout the working day, and wearing appropriate PPE for site operations. NRW officers did not witness any offensive odours or noise during the inspection. Drainage on site was in a good condition and evidently working efficiently.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
