3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Natural Resources Officer Ffion Jones met with Owner/Operator Mark Eckley on the 8th July 2025 at 10am to carry out a routine audit inspection of Ffordd Fawr Poultry Farm. Thank you Mark for your time.

Please see actions below:

1) Accident Management Plan

Please ensure you put all documentation together to create an Accident Management Plan including; written plan of risks on site and what to do in the event of an incident, drainage plan/site plan, Raw Materials List, Accident and Emergency contact list, and any other appropriate information. Once it has all been put together, please ensure a copy is placed in an accessible location e.g. gatehouse/office. *Please ensure this has been completed by the 7th August 2025*

The site/drainage plan must contain the site layout, direction of flow, dirty water tanks/channels, clean water tanks/channels, diverter valves, surface and foul drains, manure stores, gas, fuel, tanks, incinerators, chemical stores, biomass, woodchip, sensitive receptors etc.

Raw Materials List should include any raw materials that is used within the permitted site area, maximum amount that is likely to be stored at any one time, annual throughput and description of use.

On the Accident and Emergency contact list, please ensure the NRW Incident Hotline number (24 Hours) is updated to 0300 065 3000.

Inspection and Maintenance

Please record and log any maintenance checks, damages, failures and what action was taken to remediate the work. Please include details such as damage/failure, date, time, action taken to repair, date/time of action.

Site Closure Plan

Please ensure Site Closure Plan and other documentation are kept up to date with any site changes. In this instance the onsite **gas and the biomass burner** and what would happen if the site was decommissioned need to be detailed in the plan. Please ensure it is accurate and up to date with current site activity.

Please ensure all activity complies with the requirements of The Water Resources (Control of Agricultural Pollution) (Wales) Regulations 2021 and all other appropriate regulations.

Many thanks for your time during the visit.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
