## Proposal summary

Please provide an outline of your proposal, including any sketches.

As a guide, you should include: a description of the activities which (will) take place at your site, the means of abstraction/impoundment proposed, if the proposal is related to another licence or permit (i.e. an Environmental Permit to Discharge Water) and details of any survey work undertaken. For changes to existing licences, summarise the changes proposed. Sketches or photographs that will aid our understanding of your proposal can be uploaded below.

The existing abstraction permit specifies the permitted abstraction location (Point A) as OS Grid Reference SH 58914 38999. This location (Point A) is used by cattle to access the river. The as built abstraction point has been moved downstream a few metres away from the cattle watering area to avoid disturbing the cattle. The as built location is at OS Grid SH 58891 38978 slightly downstream of the above location.

The location dwg submitted as part of this variation is the original location dwg. This is because the difference between the two locations (permitted and as built) is too small to register on the location dwg.
